Alternative Metal / Rock / Progressive / Regressive — **Szczecin, Poland**

Godbite is an alternative metal/rock/progressive/regressive band from Szczecin, Poland — five people who occasionally agree on a riff.

They deal in heavy, moody, emotionally overqualified music that swings from delicate to devastating without much warning, and they're fully aware how ridiculous that sounds. Expect dark humor, questionable life choices set to music, and the general vibe of a band that takes the songs seriously and everything else not at all. You can be part of the problem on Spotify, Bandcamp, and wherever else this stuff gets streamed.

Godbite have shared stages with the likes of Luxtorpeda, Acid Drinkers, Sabaton, Blindead, Tides From Nebula, Antigama, Obscure Sphinx, Anti Tank Nun, Cripper and Kontrust. They've placed in festival competitions including Generacja, Rock in Szczecin, Antyradio Antyfest, Unique Rock Fest, Seven Festival, Around the Rock and Kortofest, and played the main stage at Woodstock Ukraine.
